Eligibility, Enrollment and Benefits

Who do I contact for sales support or with questions about products and benefits?

Call 844-294-3175. Follow the prompts to reach Sales Support.

Is there an enrollment period for BlueCare Dental Classic plans?

No. These are 12-month policies (from effective date), so you can sell these plans year-round.

Who is eligible for these plans?

Anyone 18 years of age or older can buy these plans. However, BlueCare Dental Classic products are designed for the Medicare Supplement and PDP consumer. These are policyholder-only plans that don't cover dependents. For those under 65, consider ACA dental plans instead.

How do I ensure the member gets their desired effective date?

Electronic submission is the BEST method to ensure the desired effective date. Both the application and payment must be received by the cut-off date. Mailed checks need to be received by the 15th to ensure the desired effective date.

How do I know when an application is approved and effectuated?

Call 877-329-5212 or send an email to support@trionfo.com.

When will a new member receive their ID card?

Members should receive their ID cards within two weeks of enrolling.

When do the benefits for BlueCare Dental Classic plans reset?

Benefits for BlueCare Vision plans reset one year from the effective date of the policy. The benefit period is based on the Plan year rather than the calendar year.

The BlueCare Dental Classic policies state that members are allowed two cleanings every 12 months, and the benefit period begins on the effective date and ends Dec. 31. As an example, if a member's policy has an effective date of Aug. 1, would the member be allowed to have two cleanings between Aug. 1 and Dec. 31?

Yes, the member could have two cleanings during that benefit period. Note that there is no specified time that a member must wait between their first and second cleanings within a 12-month period.

Do we allow the coordination of multiple dental benefits?

No, these plans do not coordinate benefits. They pay regardless of any other coverage. Members should refer to the Coverage of Benefits section of their policy booklet for more information

Can a member change from one plan to another plan at any time? For example, could they move from Standard to Premium? Does the waiting period start over in this situation?

Yes, a member may change plans at any time and pay the new premium; however, the waiting period would reset and not carry over from the previous coverage. Also, any amount paid toward the deductible would not count toward the new deductible.

Can a member move from one state to another state and still be covered by the same plan?

If the member moves to one of our Plan states, they would need to enroll in a new BlueCare Dental Classic plan in that state.

If they enroll in the same plan (for example, from Standard to Standard), their premiums will change since premiums vary by state. The waiting period fulfilled in their previous plan would carry over.

If the member changes to a different plan (for example, from Standard to Premier), the waiting period would be reset with the effective date of the new plan.

What if a member moves to another state where we do not offer plans?

The member would lose their coverage if they move to a state where we are not authorized to provide insurance.

What if a member is traveling domestically out of state and has a dental emergency?

Members have access to a national network of providers in emergency situations.

Do BlueCare Dental Classic plans cover implants?

No. These plans do not cover implants.

Do BlueCare Dental Classic plans cover nitrous oxide for any procedures?

No. Nitrous Oxide is not covered for any procedures.

Are root canals covered under these dental plans?

Yes. They are covered as an endodontics service for Premier and Standard plans. They are Class III services and don't require a 12-month waiting period. The Basic plan doesn't cover this service.

Claims and Billing

Where do I direct my clients/members with questions about BlueCare Dental Classic claims?

Members can call 888-454-5589 or refer to the back of their ID cards for claims service numbers.

Can I inquire about claims on behalf of my client?

No. Producers cannot inquire about a client's claim with BlueCare Dental Classic plans.

When will premiums be deducted from my client's account?

An electronic initial premium payment is deducted three to five business days after the application is submitted. Processing time will take longer if checks are submitted. On-going electronic payments are paid on the 27th day of the month or the next business day if the 27th is on a Sunday.

How will my client be billed for going out-of-network?

We have contracted discounted fees (the allowable amount) for services with in-network providers. When a member uses an out-of-network provider for non-emergency services, they may be balance billed. This means the out-of-network provider may bill the cost difference (remaining balance) of his billed amount and the allowable amount for services. That is why it is very important to encourage members to use in-network providers.

Here is an example of how balance billing works:

Ex: Crown	In-Network	Out-of-Network
Billed Charge	\$1048	\$1048
Allowable Amount	\$598	\$598
Dental Plan Pays 50%	\$299	\$299
Member Responsibility	\$299	\$749

Who files the claim for an out-of-network provider – the dentist or the member?

Typically, the dentist will file the claim. If the dentist does not file the claim, the member would have to submit a claim form after services are provided.

Can you give an example of how the allowance and 20% discount are applied?

Both the Standard and Premier plans provide a 20% discount on the balance over the allowable amounts for frames. See this example of how the discount and allowance are applied with the Premier plan:

Frames: \$3000

Allowance: \$200

Discount on balance over allowable amount: 20%

$\$3000 - \$200 = \$2,800$

$\$2,800 \times 20\% = \560

$\$2,800 - \$560 = \$2,240$

There is no dollar limit on the balance to which the discount will be applied.

Is there a maximum value for frames to which the 20% discount can be applied?

No. There is no maximum value for frames. The 20% discount only applies after the allowance has been deducted. The frame allowance may be used one time only during a benefit period.

How are rates calculated for family coverage?

The rate for the individual policy is multiplied by the number of covered family members. Example:

Individual policy: \$15 per month (for example purposes only)

Covered family members: 4

$\$15 \times 4 = \60 per month

When will premiums be deducted from my client's account?
